

In light of the latest COVID-19 developments, Chantiers jeunesse must unfortunately suspend its international projects until March 31st 2022. The situation will be reassessed regularly, putting the health and safety of volunteers, employees and partners at the core of our concerns.

In these difficult times, some communities will see an increased need for volunteers to support their activities. That's why we hope to be able to proceed with the Summer 2022 international projects season, in accordance with public health recommendations and guidelines.

Please do not hesitate to contact us at cj@cj.qc.ca.

Thank you for your comprehension,

Chantiers jeunesse
